Merryll – Shipping was much higher in 2021 Sept, Oct, Nov. We need to pull the backup but here is showing Sept at \$477 per unit.

Joe,

Thank you for approving the payment.

There will be an elevated charge for October units.

I predict elevated charges for November.

Hopefully it will end in Dec onward but it's very challenging to predict. We will do everything in our power to balance costs vs opportunity for early hashing.

Jeff

Jeff,

Thanks for the info. We have approved for payment.

Should we expect elevated shipping costs through remainder of the year?

Thanks,
Joe

Subject: Shipping Fees - Charter Plane Surcharge

John & Joe,

As discussed, we have been doing everything possible to mitigate the impact of the global supply chain and shipping crises. Traditionally shipping a unit from Malaysia to Atlanta or Chicago has run \$89 to \$167. Prices began to spike in in August and exceeded \$212 per unit.

In September, we chose to switch to chartering 747's to get the units here faster. The cost for the 3,000 Sept batch units was \$477/Unit. We will be sending an invoice for the \$600,000 charter plan surcharge. The rest will be covered by Core Scientific.

Let me know if you would like to discuss further. I did not want an invoice from Monica to catch you off guard.

Thanks,
Jeff
